Trained at the "Soy Henry" bootcamp, I possess comprehensive skills that encompass Front-end, Back-end, and database management. I developed key competencies in teamwork, big data analysis, and agile methodologies. My foundation includes strong knowledge in data structures, algorithms, and GIT.

Specialized in Front-end, I excel in React, Redux, JavaScript y Tailwind. In the Back-end, I have experience with Node.js, Express.js, Django, MongoDB, and PostgreSQL.

PROJECTS

Full Stack Web Developer - Inmuebles 360 (Oct 2023 - Nov 2023)

Academic Experience: Henry Bootcamp

On my journey, I have undertaken various projects, but I take pride in highlighting this one. I was involved in the creation of a website aimed at simplifying the real estate rental process for residential or vacation stays.

I developed and significantly enhanced the user management view, allowing users to edit their accounts, passwords, and other personalized preferences. Additionally, I implemented the functionality to add properties to the favorites list, providing a more tailored experience.

I actively participated in bug resolution and optimizations, ensuring optimal performance and a seamless user experience.
