## About

Passionate about technology, science, and innovation.

I am a highly adaptable and versatile individual who can perform effectively both in team settings and independently. I have received training as a full-stack developer.

I am enthusiastic about contributing to and growing in the field of technology, and I am eager to take on new challenges that will enable me to continue my professional development.

## Projects – academic experience

### Pokémon app - 2023

I worked on an exciting project related to Pokémon, where I was involved in both frontend and backend development. The project revolved around creating a platform that allowed users to explore and gather information about Pokémon, along with providing the functionality to create and store their own custom Pokémon.

## Education

### Full Stack Web Developer HENRY Bootcamp | Feb 2023

+800hs. of full time training in current web development technologies, dynamics of Pair Programming and soft skills boost
